

CHALLENGES THAT INSPIRE

Breaking the barriers,
**152.6 km Transmission Line &
225 KV Sub-station** at
Boundiali-Ferkessédougou Delivered

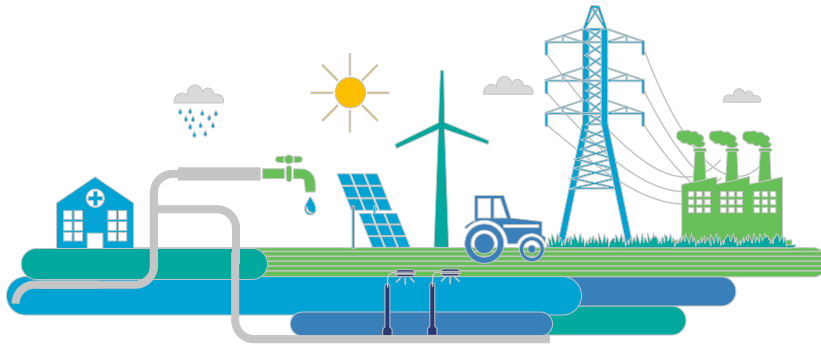

Despite nerve-wracking site distances, limited options/ resources/ machine & manpower, despite severe ROW issues, regardless of elevation differences, Angelique International Limited confronted all the challenges and executed highest voltage power system network in the country of installation.

- ▶ Exporting power to neighbouring countries Mali & Burkina Faso
- ▶ Strengthening bilateral relations among nations
- ▶ Uplifting the living standard of the local population
- ▶ A boon for the flourishing industrialization

ENGINEERING A WORLD THAT IS SELF-SUSTAINING

Delivering complete project solutions in the vital areas of power, water, irrigation and agriculture, industrial projects, railways and social infrastructure. Angelique International Limited has been empowering lives and steering the path for a better tomorrow. Focussed on building a future that is driven by growth and sustenance, it has grown into one of the leading EPC companies of India since its inception in 1996.
