What happens when CHAD- the 100% cotton producing country needs a Textile Unit and an emerging market leader in Africa joins it? For many, it's a dream come true.

Angelique International Limited-a leading Indian EPC company is now all set to widen its horizon and add "Textile industry" as another feather in its cap.

Leaving its mark successfully in so many countries, taking the dream of India forward of promoting Textile Mills, Angelique International Limited, gives a strong impetus to the Textile industry in Central Africa.

With more than 200 Projects, 32+ countries and 23 years in Africa, South East Asia & India - Angelique International Limited was established in the year 1996. Their diverse expertise in sectors like Power, Water, Irrigation & Agriculture, Social Infrastructure & Railways and Industrial Projects in several international markets narrates the story of their clear foresight.
